
FOOTBALL FEVER *crossing boundaries*

edited by ROB HESS, MATTHEW NICHOLSON AND BOB STEWART, from the Football Studies Unit in the School of Human Movement, Recreation and Performance at Victoria University.

Football Fever: Crossing Boundaries **represents the tip of the iceberg in current football research. It includes landmark chapters, notably a definitive work on the origins of Australian Rules football, an investigation of the remarkable proposal to merge two different codes, two chapters that reflect the challenges facing soccer in Australia, and some important commentaries on the media exposure associated with players, spectators and administrators. Arranged in a loose chronological order, the chapters allow the reader to either traverse the histories of the codes, or to follow a particular theme. All major codes in Australia are discussed and a number of previously unpublished photographs are featured throughout the text.**

Football Fever: Crossing Boundaries **(ISBN 0-9752384-2-6) is now available at $39.95. To order a copy, please complete the following details.**
